The screenshot displays the IBM Cognos Analytics dashboard. On the left, a sidebar shows the 'Selected sources' section with a search bar and a list of fields from the 'crop\_production.csv' dataset: State\_Name, District\_Name, Crop\_Year, Season, Crop, Area, and Production. The main workspace is titled 'with years usage of area and production' and contains two charts. The top chart, 'Area by Crop\_Year', is an area chart showing the usage of area from 1997 to 2015, with a purple fill. The bottom chart, 'Production by Crop\_Year', is a line chart showing production from 1997 to 2015, with a purple line. A message on the right states 'No visualization selected' and 'Select a visualization to manage the field settings.'
