

The screenshot displays the IBM Cognos Analytics dashboard. On the left, a sidebar shows the 'Selected sources' section with a search bar and a list of fields from the 'crop_production.csv' dataset: State_Name, District_Name, Crop_Year, Season, Crop, Area, and Production. The main workspace contains two visualizations under the heading 'with years usage of area and production'. The top visualization, 'Area by Crop_Year', is an area chart showing a relatively stable but slightly declining trend from 1997 to 2015. The bottom visualization, 'Production by Crop_Year', is a line chart showing significant fluctuations, with a notable peak around 2011 and a sharp decline towards the end of the period. The interface includes a top navigation bar with the IBM logo, a search bar, and various tool icons. A right-hand panel indicates 'No visualization selected'.

| Crop_Year | Area |
|-----------|------|
| 1997 | High |
| 1998 | High |
